

Permanent Magnet Yoke

PM-50

PM-50 contacts are covered with an additional metal surface to reduce damage to the strong surface. **PM-50** allows access even in restrictive applications. **PM-50** Built with super strong rare earth Neodymium Magnets exceeds AS1171 18kg Lift Test lift test rating. **PM-50** is constructed with the separation cable for width compliance whilst also allowing flexibility to perform your test.

PM-50 & PM-100
Permanent Magnetic Yoke
sets for magnetic particle
inspection applications,
where AC is not possible
or as per specifications.

PM-100
