

ACCESSORIES FOR COATING THICKNESS MEASUREMENT

Calibration Foils & Test Blocks

Verifying & Calibrating Leptoskop

Positioning Device

Optimized Repetition Accuracy for Stringent Applications

(order no.: 2820.999)

Reference Blocks

- Reference Block Fe (order no.: 2815.001)
- Reference Block NFe (order no.: 2815.003)
- Reference Block Fe, large (order no.: 2815.002)

Calibration Foils (recommended standard sets and blocks)

- Calibration Foil Set measuring range 0 mm – 300 μm , 2 pcs (order no.: 2715.992)
- Calibration Foil Set measuring range 0 mm – 1250 μm , 6 pcs (order no.: 2715.001)
- Calibration Foil Set measuring range 1250 mm – 4750 μm , 3 pcs (order no.: 2715.004)
- Calibration Foil Set measuring range 0.5 mm – 12.5 mm, 4 pcs (order no.: 2715.002)
- Precision Calibration Foil Set measuring range 0 μm – 1250 μm , 6 pcs (order no.: 2715.003)
- Calibration Block, 15 mm thickness measuring range 12.5 mm – 20 mm (order no.: 2715.151)

Certificates

- Calibration Foil Certificate, per foil (order no.: 2799.001)

Positioning Aids

Positioning Aids Positioning Aid for Microprobe 0° (order no.: 2998.001)

Positioning Aid for Microprobe 45° (order no.: 2998.002)

Positioning Aid for Microprobe 90° (order no.: 2998.003)
